Family shoots

Hello!

So maybe your family are getting together and you'd like to immortalise this moment in time by capturing some kodak moments together?

Or perhaps you're really just needing updated family pictures for your picture frames.

You've come to right place, amigo.

Life is so short, my friend. We've got no idea what's around the corner. So seize the moment, seize the day, capture this time together. Print and frame the images in your house and marvel at the fact that you have an imperfectly perfect family. Do it today, because tomorrow might be too late.

So let's dig in.

A man with glasses and a dark blue t-shirt is holding a baby in a light blue shirt. They are outdoors in a garden with green foliage and several large, iridescent bubbles floating in the air. The scene is bright and cheerful.

Frequently Asked Questions

Where is the best place to have family photos?

I always find the best places are the ones you hang out at a lot. Like park, the beach or your home. But if none of these places work for you, we'll think of something together.

What do we wear to our photo shoot?

Colours that compliment each other always look good. Pinterest has loads of ideas for you, otherwise look at the family shoots I have posted on my website. Most of all make sure you're comfortable and happy!

I have a few locations in mind, is that ok?

Totally, if you can help me with the travel costs, I can go anywhere.

THAT'S IT!
